

IACAP 2019

International Association for Computing and Philosophy – Annual Meeting

June 5-7, 2019, Mexico City, Mexico

Instituto de Matemáticas UNAM

Call for Abstracts

The International Association for Computing and Philosophy (IACAP) is delighted to announce that submissions are now being accepted for its 2019 annual meeting, June 5-7, to be held at and sponsored by the Institutes of Mathematics and Philosophy, Universidad Nacional Autónoma de México (UNAM). The meeting is being organized by,

Sergio Rajsbaum: Institute of Mathematics, UNAM.

<http://www.matem.unam.mx/~rajsbaum/>

Luis Estrada González: Institute of Philosophy, UNAM.

<http://www.filosoficas.unam.mx/sitio/luis-estrada>

Nancy Abigail Nuñez Hernandez: Maimonides Centre for Advanced Studies, University of Hamburg. (<https://www.maimonides-centre.uni-hamburg.de/en/research/projects/2018-2019/nunez.html>)

Francisco Hernández Quiroz: Department of Mathematics, UNAM. (<http://lya.fcencias.unam.mx/fhq/english.html>)

The International Association for Computing and Philosophy promotes philosophical dialogue and interdisciplinary research on all aspects of the computational and informational turn. Coming to these issues from a rich variety of disciplines, IACAP's members have a tradition of helping to shape philosophical and ethical debates about the nature, development, application, and limits of computation, information technologies, and artificial intelligence.

IACAP's 2019 meeting will gather philosophers, mathematicians, ethicists, logicians, roboticists, computer scientists, and cognitive scientists to explore topics including,

- Artificial Intelligence
- Artificial Life
- Automated Warfare
- Cognitive Science, Computation, and Cognition
- Computational Modeling in Science and Social Science
- Computer-Mediated Communication
- Ethical Problems and Societal Impact of Computation and Information
- Ethics and Epistemology of Big Data
- History of Computing and Logic
- Computability and Complexity Theory
- Information Culture and Society
- Metaphysics and Epistemology of Computation
- Philosophy of Computer Science
- Philosophy of Information
- Philosophy of Information Technology
- Philosophy of Mind
- Robotics
- Virtual Reality
- ... and related issues

We invite submissions of extended abstracts and proposals for symposia.

Important Dates:

Paper Presentations (Extended Abstracts):

Submission: **February 15, 2019**

Notification of Acceptance: **March 15, 2019**

Symposia Proposals:

Submission: **February 1, 2019**

Notification of Acceptance: **February 15, 2019**

Paper and symposia submissions should be provided at:

<https://easychair.org/conferences/?conf=iacap2019>

Submissions for paper presentation should:

- Be prepared for blind review;
- Provide an extended abstract of 800-1200 words; and,
- Provide a short abstract of 150-250 words suitable for inclusion in a program.

Proposals for symposia should indicate:

- The title of the proposed symposium;
- A description of the topic and of its relevance for the IACAP membership;
- A list the participants (indicating particularly those who have confirmed their participation); and,
- The number of hours required.

Program Committee:

- Patrick Allo
- Brian Ballsun-Stanton
- Paul Bello
- Don Berkich
- Selmer Bringsjord
- Elizabeth Buchanan
- Charles Ess
- Luciano Floridi
- Nir Fresco
- Luis Estrada González
- Frances Grodzinsky
- Francisco Hernández
- Nancy Abigail Nuñez Hernandez
- John Licato
- Patrick Lin
- Steve Mckinlay
- Keith Miller
- James H. Moor
- Gualtiero Piccinini
- Thomas Powers
- Giuseppe Primiero
- Sergio Rajsbaum
- Miguel Angel Sicart
- Judith Simon
- Johnny Søraker
- John Sullins
- Mariarosaria Taddeo
- Herman Tavani
- Orlin Vakarelov
- Shannon Vallor
- Wendell Wallach
- Marty Wolf
